Choose quality

We are one of the north of England's largest and oldest home improvement firms – established in 1971.

Our family-owned and run business prides itself on quality manufacturing processes, expert fitting, and superb customer care.

Employing over 300 staff, we are trusted and recognised throughout the UK, and customers have peace of mind in dealing with a long-standing business whose ethos is providing exceptional quality and service.

BIFOLD DOORS

Aluminium bifolding doors create a visually stunning addition to your home and can add huge value - both to your property, and also to your lifestyle.

Modern, sleek and stylish - aluminium bifold doors will transform your home by merging the inside and outside to create a 90 per cent clear opening from interior to exterior. Let natural light flood in and help your property realise its full potential.

Thermal performance and slim profile sections minimise the visible framework and maximise the glass area, a factor which is key to their design.

Engineering grade hardware allows for silky smooth opening and closing operation without having to pay a premium price. What's more, all our doors come with a 10-year manufacturers' guarantee for your complete peace of mind.

Why choose Aluminium?

Aluminium is extremely durable and more hard-wearing than other materials. You'll be able to enjoy your aluminium doors not only for years - but for decades to come. They're incredibly resistant to the elements, and aluminium is also an incredibly strong material, therefore providing a high level of security.

Aluminium doors are among the best-insulated on the market, thanks to advanced thermal break technology which prevents cold transfer.

They require very little maintenance to ensure optimal performance and to keep them looking good as new.

A must-have design feature in modern homes, extensions and renovation projects - aluminium bifolds are a great alternative to patio doors and French doors.

Boasting a slim profile and available in any size up to 6m wide, they will look fantastic in any style of property - removing the barrier between your home and garden to create a versatile space for all occasions.

Made to measure and manufactured to your exact requirements, all powder coated aluminium bifold doors in our range can be supplied in a variety of colours - you can even opt for different colours on the inside and outside.

Whilst grey aluminium bifold doors continue to be popular, black is also highly sought-after, and other colours are available on request.

- Strong and durable
- Perfect for large openings
- Easy to operate
- Multipoint locking system

SLIDING DOORS

Aluminium sliding doors create a visually stunning addition to your home and can add huge value to the property. Thermal performance and strong, super slim profile sections to minimise the visible framework and maximise the glass area.

EYG design, manufacture and install aluminium sliding doors and uPVC sliding doors. So whether your home is modern or traditional, our standard and made to measure sliding doors will mean you can find one that's perfect for your project.

Because of the way our double glazed sliding doors are constructed, you won't have to compromise on security - meaning they guarantee to keep out unwanted visitors.

Why choose Aluminium?

Aluminium is extremely durable and hard wearing. You'll be able to enjoy your aluminium doors for decades as they're incredibly resistant to the elements.

It is an incredibly strong material, providing a high level of security.

Aluminium doors are among the best-insulated on the market, thanks to advanced thermal break technology.

They require very little maintenance to ensure optimal performance and to keep them looking good as new.

Each panel on our patio sliding doors is made to the highest possible standard, with steel reinforcing and toughened safety glass fitted as standard.

Boasting a high-security multi-locking system which can be locked from inside or out, our sliding patio doors will help to keep you safe and prevent any unwanted visitors from entering your home.

With a wide range of styles and finishes available, choose a colour that blends in perfectly with the style of your home. We also offer a dual-colour option - so you can have a different finish on the inside and outside.

With a super slim interlock of just 25mm for maximum vision, excellent thermal performance, noise reduction, high security and weatherproofing.

Enhance
your home

FRENCH DOORS

French doors are the perfect way to open up your home onto the garden so you can enjoy more of the great outdoors.

Suitable for properties of all ages and styles, installing external French doors will make your interior feel more spacious and appear much larger. As well as allowing you to move effortlessly from indoors to outdoors, French doors also help natural light to come flooding in.

If you're looking to make a great investment that will stand the test of time, French doors are a stunning and affordable feature - keeping you cosy and warm in winter - and cool in the summer.

As manufacturers of all the doors we supply and fit, we can offer standard or bespoke French doors which are made to measure. And because they are available in a wide range of styles, we are confident you will find one that is right for you in our extensive French doors collection - either in uPVC or aluminium.

Whatever you are looking for, all our doors come equipped with security features and a multi-locking system to give you complete peace of mind. Each panel on our external French doors is painstakingly made to the highest possible standards, incorporating steel reinforcing and toughened safety glass as standard.

With two steel hooks, a reversible latch bolt and a completely enclosed deadbolt that's made from hardened steel and nickel plated; they can be locked from the inside or out. As our French windows come with a unique multi-locking system, they'll help keep you and your family protected from any intruders.

All exterior French doors can be supplied and fitted in a number of colours, including a dual-finish option which lets you have a different finish on the inside and out.

uPVC French doors are also available in a wood grain effect in white or cream, giving a textured look that replicates the natural feel of real timber but without the additional maintenance costs associated with traditional wood.

A modern sunroom with large windows, wooden paneling, and outdoor furniture. The room features a high ceiling with exposed wooden beams and a string of blue lights along the top edge. The walls are clad in vertical wood panels. Large windows offer a view of a lush green garden with trees and a lawn. In the foreground, there is a wooden coffee table with a potted plant and a small green container. To the left, a wicker sofa with blue cushions is visible. To the right, another wicker sofa with blue and yellow cushions is shown. A brick pillar is visible near the center. On the right wall, there is a circular sun-themed decoration and a small wooden sign with text.
